

HOW TO STAY IN THE BLACK

Black is the most popular roofing slate color in the world, and you probably already know that your choice of black

slate supplier can have a significant impact on

your bottom line. North Country Black roofing slate is drawn from a single exclusive quarry, one that produces slates to a higher standard. With its easy trimming characteristics, close dimensional tolerances and careful packaging, North Country Black offers installation efficiencies that no other slate can match. Add to this, our commitment to inventory, full range of sizes, and a competitive price and you are unbeatable. More satisfied customers, more referral business and more black ink for your bottom line. For more information, contact us today and go with North America's best.
